

Glosas Acto Da Del Trabajador Y La Constitucin

Miranda Fricker

The Countries of the King's Award Sir Thomas Hungerford Holdich, 1904

The Book of the Knight Zifar Charles L. Nelson, 2021-12-14 The Book of the Knight Zifar (or Cifar), Spain's first novel of chivalry, is the tale of a virtuous but unfortunate knight who has fallen from grace and must seek redemption through suffering and good deeds. Because of a curse that repeatedly deprives him of that most important of knightly accoutrements—his horse—Zifar and his family must flee their native India and wander through distant lands seeking to regain their rank and fortune. A series of mishaps divides the family, and the novel follows their separate adventures—alternatively heroic, comic, and miraculous—until at length they are reunited and their honor restored. The anonymous author of Zifar based his early fourteenth-century novel on the medieval story of the life of St. Eustacius, but onto this trunk he grafted a surprising variety of narrative types: Oriental tales of romance and magic, biblical stories, moralizing fables popular since the Middle Ages, including several from Aesop, and instructions in the rules of proper knightly conduct. Humor in the form of puns, jokes, and old proverbs also runs through the novel. In particular, the foolish/wise Knave offers a comic contrast to the heroic Knight, whom he must continually rescue through the application of common sense. Zifar was to have an important influence on later Spanish literature, and perhaps on Cervantes' great tale of a knight and his squire, Don Quixote. All those with an interest in Spanish literature and medieval life will be grateful for Mr. Nelson's excellent translation, which brings to life this extraordinary early novel.

Law's Stories Peter Brooks, Paul Gewirtz, 1996-01-01 The law is full of stories, ranging from the competing narratives presented at trials to the Olympian historical narratives set forth in Supreme Court opinions. How those stories are told and listened to makes a crucial difference to those whose lives are reworked in legal storytelling. The public at large has increasingly been drawn to law as an area where vivid human stories are played out with distinctively high stakes. And scholars in several fields have recently come to recognize that law's stories need to be studied critically. This notable volume—inspired by a symposium held at Yale Law School—brings together an exceptional group of well-known figures in law and literary studies to take a probing look at how and why stories are told in the law and how they are constructed and made effective. Why is it that some stories—confessions, victim impact statements—can be excluded from decisionmakers' hearing? How do judges claim the authority by which they impose certain stories on reality? *Law's Stories* opens new perspectives on

the law, as narrative exchange, performance, explanation. It provides a compelling encounter of law and literature, seen as two wary but necessary interlocutors. Contributors: J. M. Balkin, Peter Brooks, Harlon L. Dalton, Alan M. Dershowitz, Daniel A. Farber, Robert A. Ferguson, Paul Gewirtz, John Hollander, Anthony Kronman, Pierre N. Leval, Sanford Levinson, Catharine MacKinnon, Janet Malcolm, Martha Minow, David N. Rosen, Elaine Scarry, Louis Michael Seidman, Suzanna Sherry, Reva B. Siegel, Robert Weisberg.

Language and Poverty Wayne Harbert, Sally McConnell-Ginet, 2009 This volume explores the complex interactions of language with economic resources. How does poverty affect language survival? How is the economic status of individuals affected by the languages they do or do not speak? The authors address these questions from multiple perspectives, drawing on linguistics, language policy and planning, economics, anthropology, and sociology.

The Alexandreis Walter Chatillon, 2006-10-16 Walter of Châtillon's Latin epic on the life of Alexander the Great was a twelfth- and thirteenth-century "best-seller:" scribes produced over two hundred manuscripts. The poem follows Alexander from his first successes in Asia Minor, through his conquest of Persia and India, to his progressive moral degeneration and his poisoning by a disaffected lieutenant. The *Alexandreis* exemplifies twelfth-century discourses of world domination and the exoticism of the East. But at the same time it calls such dreams of mastery into question, repeatedly undercutting as it does Alexander's claims to heroism and virtue and by extension, similar claims by the great men of Walter's own generation. This extraordinarily layered and subtle poem stands as a high-water mark of the medieval tradition of Latin narrative literature. Along with David Townsend's revised translation, this edition provides a rich selection of historical documents, including other writings by Walter of Châtillon, excerpts from other medieval Latin epics, and contemporary accounts of the foreign and "exotic."

Fictionalizing heterodoxy Folke Gernert, 2019-06-17 The information overload produced by the printing press and the new forms of the structuring of knowledge are echoed in fictional works. The essays assembled in this book study the textualization of problematic forms of knowledge in medieval and early modern Spanish literature. Literary Works like the *Libro buen amor*, *La Lozana Andaluza*, or the *Guzmán de Alfarache* are read against the backdrop of scientific developments of their times.

Places of Power and Memory in Mesoamerica's Past and Present Daniel Graña Behrens, 2016 La quatrième de couverture indique : This book provides a fresh look at the principles of power and the memory of places in Mesoamerica. Toponyms, boundaries and landscapes play an important role in shaping local politics and peoples life's throughout past and present. Beyond structural and conceptual similarities in calendar, rituals and religion, Mesoamerica shares a devote preference for places, sites or urban centers as distinguishable feature for collectiveness, constantly reshaped and transformed according to the historical circumstances either political, economical or religious. Thus, more than a coincidence, the importance of places

over recognizable or by natives documented cultural regions in Mesoamerica seems to be a cultural pattern with deep roots lasting until today.

An American Language Rosina Lozano, 2018-04-24 *An American Language* is a tour de force that revolutionizes our understanding of U.S. history. It reveals the origins of Spanish as a language binding residents of the Southwest to the politics and culture of an expanding nation in the 1840s. As the West increasingly integrated into the United States over the following century, struggles over power, identity, and citizenship transformed the place of the Spanish language in the nation. *An American Language* is a history that reimagines what it means to be an American—with profound implications for our own time.

Nonius Marcellus De compendiosa doctrina John Henry Onions, 1882

Distinction Pierre Bourdieu, 2013-04-15 Examines differences in taste between modern French classes, discusses the relationship between culture and politics, and outlines the strategies of pretension.

The Class Struggle (Erfurt Program) Karl Kautsky, 1910

Practical Reason Pierre Bourdieu, 1998 This work by Pierre Bourdieu develops the anthropological theory which has formed the basis of his scientific research. It discusses the problems posed by structuralist philosophers in order to solve or dissolve them.

Heritage and Rights of Indigenous Peoples Manuel May Castillo, Amy Strecker, 2017 In 2007, the United Nations adopted the UN Declaration on the Rights of Indigenous People, a landmark political recognition of indigenous rights. A decade later, this book looks at the status of those rights internationally. Written jointly by indigenous and non-indigenous scholars, the chapters feature case studies from four continents that explore the issues faced by Indigenous Peoples through three themes: land, spirituality, and self-determination.

Epistemic Injustice Miranda Fricker, 2007-07-05 In this exploration of new territory between ethics and epistemology, Miranda Fricker argues that there is a distinctively epistemic type of injustice, in which someone is wronged specifically in their capacity as a knower. Justice is one of the oldest and most central themes in philosophy, but in order to reveal the ethical dimension of our epistemic practices the focus must shift to injustice. Fricker adjusts the philosophical lens so that we see through to the negative space that is epistemic injustice. The book explores two different types of epistemic injustice, each driven by a form of prejudice, and from this exploration comes a positive account of two corrective ethical-intellectual virtues. The characterization of these phenomena casts light on many issues, such as social power, prejudice, virtue, and the genealogy of knowledge, and it proposes a virtue epistemological account of testimony. In this ground-breaking book, the entanglements of reason and social power are traced in a new way, to reveal the different forms of epistemic injustice and their place in the broad pattern of social injustice.

Latin American Vanguardists Vicky Unruh, 1994-12-15 In this first comprehensive study of Latin America's literary vanguards of the 1920s and 1930s, Vicky Unruh explores the movement's provocative and polemic nature. Latin American vanguardism—a precursor to the widely acclaimed work of contemporary Latin American writers—was stimulated by the European avant-garde movements of the World War I era. But as Unruh's wide-ranging study attests, the vanguards of Latin America—emerging from the continent's own historical circumstances—developed a very distinct character and voice. Through manifestos, experimental texts, and ribald public performance, the vanguardists' work intertwined art, culture, and the politics of the day to produce a powerful brand of aesthetic activism, one that sparked an entire rethinking of the meaning of art and culture throughout Latin America.
