Somatic Voices in Performance Research and Beyond Christina Kapadocha, 2020-10-21 *Somatic Voices in Performance Research and Beyond* brings together a community of international practitioner-researchers who explore voice through soma or soma through voice. Somatic methodologies offer research processes within a new area of vocal, somatic and performance praxis. Voice work and theoretical ideas emerge from dance, acting and performance training while they also move beyond commonly recognized somatics and performance processes. From philosophies and pedagogies to ethnic-racial and queer studies, this collection advances embodied aspects of voices, the multidisciplinary potentialities of somatic studies, vocal diversity and inclusion, somatic modes of sounding, listening and writing voice. Methodologies that can be found in this collection draw on: eastern traditions body psychotherapy-somatic psychology Alexander Technique, Feldenkrais Method Authentic Movement, Body-Mind Centering, Continuum Movement, Integrative Bodywork and Movement Therapy Fitzmaurice Voicework, Linklater Technique, Roy Hart Method post-Stanislawski and post-Grotowski actor-training traditions somaesthetics The volume also includes contributions by the founders of: Shin Somatics, Body and Earth, Voice Movement Integration SOMart, Somatic Acting Process This book is a polyphonic and multimodal compilation of experiential invitations to each reader's own somatic voice. It culminates with the voices of contributing participants to a praxical symposium at East 15 Acting School in London (July 19-20, 2019). It fills a significant gap for scholars in the fields of voice studies, theatre studies, somatic studies, artistic research and pedagogy. It is also a vital read for graduate students, doctoral and postdoctoral researchers.

Repetition in Performance Eirini Kartsaki, 2017-08-23 This book explores repetition in contemporary performance and spectatorship. It offers an impassioned account of the ways in which speech, movement and structures repeat in performances by Pina Bausch, Anne Teresa De Keersmaeker, Lone Twin Theatre, Haranczak/Navarre and Marco Berrettini. It addresses repetition in relation to processes of desire and draws attention to the forces that repetition captures and makes visible. What is it in performances of repetition that persuades us to return to them again and again? How might we unpack their complexities and come to terms with their demands upon us? While considering repetition in relation to the difficult pleasures we derive from the theatre, this book explores ways of accounting for such experiences of theatre in memory and writing.

Open Book Theater Management Rafe Beckley,2014-09-26 In the world of Fringe (or Off-Off Broadway) theatre, a strong debate has been raging for years - when you're producing a low/no-budget production, how on earth can you make it happen and still treat everyone involved in an open, honest and ethical manner? Where do you stand with profit-share productions when you can't afford to pay Union minimums? Open Book Theatre Management, along with its free online resources of instructional budget spreadsheets, is the first book ever to show you exactly how to mount a theatre production without losing either your integrity or your shirt. It is aimed at actors, directors and producers in the early stages of their careers; drama schools; and further and higher education establishments. The methodologies outlined in the book are transferable across all countries in which arts funding is difficult to secure. The time for going to the Establishment with the begging bowl is over. There need be no more excuses. The author will even show you how to start your own theatre company for only a tenner...

Voice into Acting Christina Gutekunst,John Gillett,2014-01-16 How can actors bridge the gap between themselves and the text and action of a script, integrating fully their learned vocal skills? How do we make an imaginary world real, create the life of a role, and fully embody it vocally and physically so that voice and acting become one? Christina Gutekunst and John Gillett unite their depth of experience in voice training and acting to create an integrated and comprehensive approach informed by Stanislavski and his successors - the acting approach widely taught to actors in drama schools throughout the world. The authors create a step-by-step guide to explore how voice can: respond to our thoughts, senses, feelings, imagination and will fully express language in content and form communicate imaginary circumstances and human experience transform to adapt to different roles connect to a variety of audiences and spaces Featuring over fifty illustrations by German artist Dany Heck, Voice into Acting is an essential manual for the actor seeking full vocal identity in characterization, and for the voice teacher open to new techniques, or an alternative approach, to harmonize with the actor's process.

Voice Studies Konstantinos Thomaidis,Ben Macpherson,2015-05-22 Voice Studies brings together leading international scholars and practitioners, to re-examine what voice is, what voice does, and what we mean by voice studies in the process

and experience of performance. This dynamic and interdisciplinary publication draws on a broad range of approaches, from composing and voice teaching through to psychoanalysis and philosophy, including: voice training from the Alexander Technique to practice-as-research; operatic and extended voices in early baroque and contemporary underwater singing; voices across cultures, from site-specific choral performance in Kentish mines and Australian sound art, to the laments of Kraho Indians, Korean pansori and Javanese wayang; voice, embodiment and gender in Robertson's 1798 production of Phantasmagoria, Cathy Berberian radio show, and Romeo Castellucci's theatre; perceiving voice as a composer, listener, or as eavesdropper; voice, technology and mobile apps. With contributions spanning six continents, the volume considers the processes of teaching or writing for voice, the performance of voice in theatre, live art, music, and on recordings, and the experience of voice in acoustic perception and research. It concludes with a multifaceted series of short provocations that simply revisit the core question of the whole volume: what is voice studies?

Training Actors' Voices Tara McAllister-Viel, 2018-08-06 Contemporary actor training in the US and UK has become increasingly multicultural and multilingual. Border-crossing, cross-cultural exchange in contemporary theatre practices, and the rise of the intercultural actor has meant that actor training today has been shaped by multiple modes of training and differing worldviews. How might mainstream Anglo-American voice training for actors address the needs of students who bring multiple worldviews into the training studio? When several vocal training traditions are learned simultaneously, how does this shift the way actors think, talk, and perform? How does this change the way actors understand what a voice is? What it can/should do? How it can/should do it? Using adaptations of a traditional Korean vocal art, p'ansori, with adaptations of the natural or free voice approach, Tara McAllister-Viel offers an alternative approach to training actors' voices by (re)considering the materials of training: breath, sound, presence, and text. This work contributes to ongoing discussions about the future of voice pedagogy in theatre, for those practitioners and scholars interested in performance studies, ethnomusicology, voice studies, and intercultural theories and practices.

Nikolai Demidov Nikolai Demidov, 2016-07-01 At the time of his death, Stanislavsky considered Nikolai Demidov to be 'his only student, who understands the System'. This book brings together Demidov's five volumes on actor training. Supplementary materials, including transcriptions of Demidov's classes, and notes and correspondence from the author make this the definitive collection on one of Russian theatre's most important figures.
